

Quality Policy

Advanced Fibreoptic Engineering Ltd specialises in the design and manufacture of fibreoptic components and assemblies. It is the vision of this company to provide innovative, precision engineered solutions for our customers, in a range of markets.

To achieve this, the company is totally committed to implement, maintain and continually improve the effectiveness of, our Quality Management System, which is certified to ISO 9001:2008.

It is essential for the success of our business to continually focus our resources on the improvement of all processes, with a target of 'supplying the product right first time, on time, and at a competitive price'.

To achieve our business objectives we are committed to establishing Advanced Fibreoptic Engineering Ltd as the industry leader of custom designed fibreoptic components. This is supported by our Quality System, and relies upon the expertise and involvement of all employees for its success.

This quality policy shall be reviewed by the management team at regular intervals to ensure it continues to reflect our key objectives.
